

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

Dear crane operator certification candidate:

Welcome to Team Safety Consultants LLC Crane Operator Certification Program.

This procedure defines the requirements and methods used by TSC for certifying persons in the field of lifting equipment whose task is to operate lifting equipment safely.

TSC provides a fair and independent evaluation of crane operator knowledge and skills. Key to this industry – led effort was the development of the TSC oral/written and practical examinations.

Until recently, crane operator certification has been voluntary unless required by local jurisdictions or under the Public Health and Safety Department (PHSD) and EIAC-RQ-CB-006.

The process of certification of persons is generally summed up in six steps:

- 1) Application
- 2) Application review
- 3) Examination
- 4) Examination Evaluation
- 5) Certification
- 6) Recertification

The reference has been developed to provide you with comprehensive information about the TSC written and practical examinations leading to certification. If, after reading the certification Scheme, there is anything you do not fully understand, please call TSC at [04-2828868](tel:04-2828868) or email info@tsc-uae.ae. TSC staff will guide you through any aspects of the program that you would like explained in more detail.

TSC Approved by:

Labour Ministry, Dubai Municipality, RAKEZ, Jebel Ali Free Zone Authority (Trakhees),
ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018 Certified
Abu Dhabi – ENAS, ACTVET, Abu Dhabi Municipality, Hamriyah Free zone,
Dubai Civil Aviation Authority (DACC) Dubai South, Emirates Global Aluminium (EGA),
Knowledge and Human Development Authority (KHDA), Dubai corporation for ambulance services (DCAS),
High field Awarding Body for Compliance (HABC) Approved Centre-UK, SAIA University Accredited Training Institute (ATI) - USA,
EIAC Accredited ISO/IEC 17020 Inspection Body (IB-004) & ISO/IEC 17024 Accredited Person Certification Body (CB-PRS-020)

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

1. Scope Description

Team Safety Consultants LLC, for the certification of crane operators is an independent organization formed to set standards for fairly measuring knowledge and proficiency required for the safe operation of cranes.

2. Terms and Definitions

Terms included in this document are defined as follows:

PHSD- Stands for Public Health and Safety Department of Dubai Municipality.

EIAC - Stands for the Dubai Accreditation Centre of Emirates International Accreditation Centre

TSC – Team Safety Consultants

Lifting Equipment - Any lifting equipment as described in EIAC-RQ-IB-002

Lifting Equipment Operator - Any person who is qualified and certified to operate a certain type of lifting equipment

Examiner - A person competent to conduct and score an examination, where the examination requires professional Judgment (assessment)

Decision Maker - Authority who makes the decision regarding the issuance of certification, complaints and appeals

Examination - Mechanism that is part of the assessment which measures a candidate's competency by one or more means, such as written, oral, practical and observational, as defined in this document

Assessment - Process that evaluates a person's fulfilment of the requirements defined in this document

Certification Procedures

3. Application Pre-Requirements (Criteria for Initial Certification Process)

Before any certificate may be issued, a written application shall be in place. This application shall, as a minimum, contain:

- ❖ The scope of the application
- ❖ The applicant's full name
- ❖ Company name and address
- ❖ Examination type and category
- ❖ A statement that the applicant agrees to comply with the certification scheme requirements and to supply any information needed for the assessment.
- ❖ The following documents, copies of the applicant to be submitted along with this application.
 - i. Passport Copy
 - ii. Visa Copy
 - iii. Labour Card Copy
 - iv. Photograph (Not older than 6 months)
 - v. Proof of training (if relevant)
 - vi. Evidence of working experience

Check your application to ensure that all information is accurate and complete. An incomplete application or inaccurate documentation will delay the processing.

4. Eligibility

To be eligible for certification as a lifting equipment operator, candidates must.

- Be at least 18 years of age
- Have a valid occupational health card issued by the relevant equipment
- Have a valid driving license from the relevant authority (For lifting equipment operator where applicable)
- Comply with TSC substance abuse policy

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

- Able to read the load chart
- Pass written/oral examination (core exam and at least one special exam) with a score not less than 80%
- Pass Practical Examination with a score not less than 75%
- Comply with the TSC code of ethics

5. Job & Task Description

Lifting equipment operator certification examinations are designed for operators who are trained and who currently work in lifting equipment operation.

6. Candidate Abilities

Certified crane operators must continue to meet occupational health card requirements throughout the certification periods.

7. Application Review & Acknowledgement to Client

A review and verification of the application and the submitted documentation shall be conducted by the TSC Quality Department, confirming that the applicant satisfies the pre-requirements according to the certification scheme.

If the applicant is found not eligible as per the above requirements, the TSC coordinator shall notify the applicant or the concerned personnel immediately.

8. Code of Ethics for Certified Lifting Equipment Operators

Certified lifting equipment operators must comply with the code of ethics during their certification, as follows:

- Free of bias with regard to religion, ethnicity, gender, age, national origin, and disability
- So as to place the safety and welfare of workers associated with the lifting operation above all other considerations
- So as to protect nearby general public property and the environment
- Make management aware if he has safety concerns relating to the lifting operations that he is performing
- Not knowingly violate safety-related regulations or instructions set forth by authority-recognized safety standards, the lifting equipment manufacturer, or the relevant department.
- Not misrepresent or knowingly deceive others concerning the experience or the capabilities of myself or the crane I am operating
- Not misrepresent or misuse my certification card, both of which are the property, and understand that I must return the card to the TSC immediately. If required to do so

9. Substance Abuse Policy

It is the policy of the TSC that crane operators shall not use prescribed or over-the-counter substances that would impair their ability to operate cranes safely. This includes illegal drugs and controlled substances (including trace amounts). Look-alike drugs, Designer drugs. Or any other substance that may have an effect on the human body of being a narcotic, depressant, stimulant or hallucinogen.

An exception to this rule is that an operator may use such a substance or drug if it is prescribed by a licensed medical practitioner who is familiar with the operator's medical history and all assigned duties, and who has advised the operator the prescribed substance will not adversely affect the operator's ability to operate a crane safely.

10. Disciplinary Policy

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

TSC, with its certification scheme committee, is responsible for establishing and implementing standards and codes of conduct, such as ethical standards, policies and procedures for disciplinary action. Grounds for revocation of certification status shall include, but not be limited to, the following:

1. Period of certification exceeded without renewal
2. Evidence of falsification of any information on any documents submitted to TSC.
3. Evidence of non-compliance with Substance Abuse Policy
4. Evidence of culpability in an accident during the certification period
5. Evidence of non-compliance with the medical requirements for the Occupational Health Card issuance.
6. Evidence of non-compliance with the Code of Ethics

TSC has established policies and procedures to address alleged violations of the Code of Ethics fairly and consistently.

11. Prerequisites

All candidate have to bring their personal ID during the examination time and a pen & Pencil (to complete the written examination answer sheet) and Proper PPE for the practical Examination.

12. Certification Time Frame

Candidates must pass the Written/Oral Exam and the Practical Exam in the category(s) for which they seek certification. Candidates may take their Written/Oral and Practical Exams in any order.

Candidates may only take one day for the mobile crane safety operation assessment. Exam timing may be set by the examiner and may be extended based on other variables and or language barriers.

Candidates have one month after they pass their first exam (Written/Oral or Practical) to pass the corresponding Written/Oral or Practical Exam(s) in the same category(s).

If a certified operator subsequently becomes certified in additional specialties by taking the appropriate written and practical exams, the one-year certification period for the additional specialties begins at the same time as he/she was originally certified (i.e., all specialties expire on the same date, regardless of when in the one-year certification period the candidate passed them).

In the normal case, the examination time will be as follows:

- Written Examination: Core Examination: 45 minutes & specialty examination: 45 minutes
- Oral Examination : 30 Min
- Practical Examination : 1 hour/Candidate

13. Commitment to Impartiality

The Team Safety Consultants certification Activities shall be Undertaken Impartially.

The Team Safety Consultants shall be responsible for the impartiality of its Certification Activities and shall keep the Determination and certification Result free from any commercial, financial and other pressure to compromise Impartiality. TSC has fair dealings with all our applicants, Candidates and Certified Persons.

The processes and procedures are carefully designed to keep all the activities free from each other's influence, impartiality and conflict of interest. These processes and procedures are regularly reviewed during internal audits and management reviews to keep a strict check on the risk of impartiality.

The Team Safety Consultants should not allow commercial or other considerations to influence the objectivity or impartiality of the certification process. The certification shall have top management commitment to impartiality in place.

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

14. Examination Process (Assessment Methods for Initial and Re-Certification)

TSC conducts examination (written/oral and practical) and certification in the following areas/specialties:

- Lifting Equipment Operator

Candidates meeting the eligibility requirements may take the written/oral and practical examinations in any order

14.1 Written/Oral Examination Outline:

The Lifting equipment operator written/oral examinations are conducted by multiple choice questions, which shall be developed as fair and objective assessments of the essential skills a lifting equipment operator needs to operate, rig, supervise and signal safely. Each examination shall contain a unique combination of questions taken from the question bank. Questions are selected for examinations based on the content area and specialties applied by the candidate.

The core exam may be administered separately if the candidate would like to take more than one specialty in the same written/oral exam day. The examination may be integrated with both core and specialty examinations into one exam paper per equipment; the question paper consists of 50 multiple choice question.

Core Examination

The written/oral examination consists of 30 multiple-choice questions covering areas like

Area 1: SITE (Approximately 20% of test: 6 Questions)

Area 2: OPERATIONS (Approximately 25% of test: 7-8 Questions)

Area 3: TECHNICAL KNOWLEDGE (Approximately 30% of test: 9 Questions)

Area 4: MANUFACTURERS' LOAD CHARTS (Approximately 25% of test: 7-8 Questions)

Specialty exam

The written/oral examination consists of 20 multiple-choice questions covering areas like

Area 1: SITE (Approximately 10% of test: 2 Questions)

Area 2: OPERATIONS (Approximately 30% of test: 6 Questions)

Area 3: TECHNICAL KNOWLEDGE (Approximately 25% of test: 5 Questions)

Area 4: MANUFACTURERS' LOAD CHARTS (Approximately 35% of test: 7 Questions)

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

Practical Examination Outline:

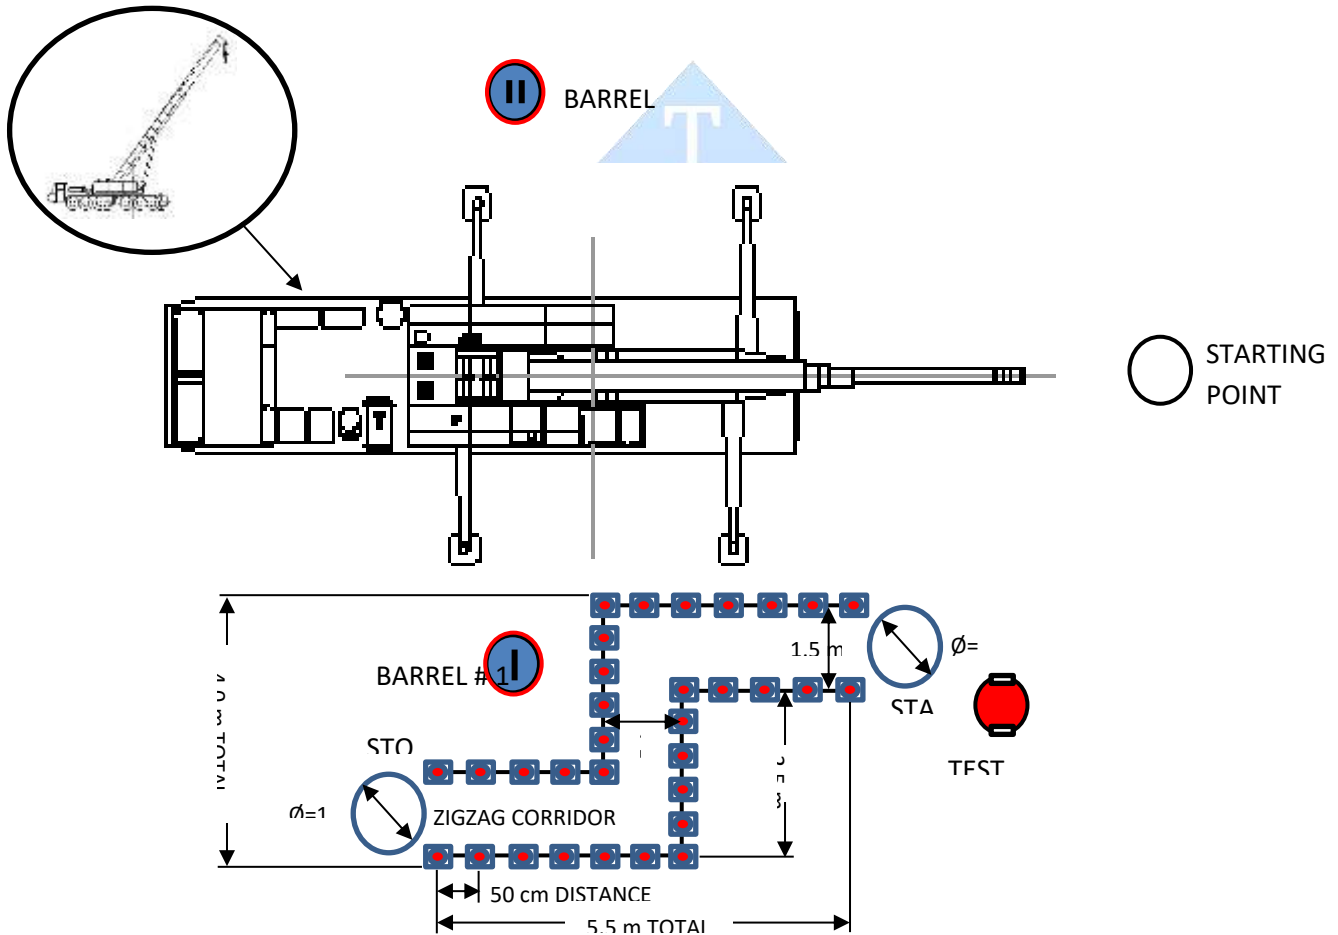

The Crane operator practical examinations demonstrate crane operation proficiency. The four tasks that make up the practical examination are Task 1, 2, 3, 4, 5 and Task 6. An optimum limit shall be set by the examiner for all the tasks. The examiner, based on the lifting equipment type, may modify tasks.

During the practical examination, you are under the direction of the examiner and must follow the examiner's direction at all times. It is important that you understand the instructions. If there is anything you do not understand, please request clarification from the examiner.

You will be required to complete all phases of the test in sequence. Once you have completed all of the practical exam, you must leave the testing area. Only personnel involved in the administration of the test are allowed in the test area.

Mobile Crane Practical Examination Layout

Task 1: Pre-Operational Inspection

1. Candidate's ability to identify the critical area of a crane's pre-operational inspection.
2. The examiner ask 5 different areas of the crane.

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

3. Describe how you inspect each critical area
4. Candidate has only 1 minute per item.
5. After the task, candidates will be debriefed. If any crane parts are not understood properly.

Example of crane parts;

- Hook
- Boom
- Safe Load Indicator
- Outrigger
- Winch/Hoist
- Etc.

Task 2: Place Ball in Stop Circle

Sample optimum Time: 1½ minutes

1. Raise the ball and chain at least 3 meters off the ground to clear all obstacles and personnel.
2. Bring it from its starting position in the Start Circle to the Stop Circle.
3. Once the ball and chain reach the Stop Circle, place it there such that the chain is suspended from the Hook makes contact with the ground inside the circle and remains there.
4. Candidates must be debriefed after finishing the test, especially if one or more of the following happen:
 - a. Dragging the chain or contacting the ground outside of the circle
 - b. Hook or ball touching ground either inside or outside of the circle
 - c. Hook or ball contacting any part of the course or crane
 - d. Lifting the chain off the ground after it has made contact with the ground inside the circle
 - e. Exceeding the optimum time

Task 3: Follow Hand and Voice Signals

This task is not timed.

1. The examiner must use standard signals.
2. The Examiner may select four signals from the following:
 - a. Hoist and stop
 - b. Swing and stop
 - c. Lower the load and stop
 - d. Lower the load slowly and stop
 - e. Lower the boom, raise the load, and stop
 - f. Raise the boom and stop
 - g. Lower the boom and stop
 - h. Raise the boom, lower the load, and stop
3. The Examiner may give the signals in any sequence.

Task 4: Place Ball in Barrels

Sample optimum times:

- Telescopic Boom Crane—Fixed Cab: 3½ minutes
Telescopic Boom Crane—Swing Cab: 3½ minutes
Lattice Boom Crane: 4 minutes

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

- Bring the overhaul ball from the Start Circle and place it into Barrel #1. (If you knock over Barrel #1 and put the ball in Barrel #2.)
- The Examiner will determine when the horizontal white line painted around the centre of the ball has dropped below the rim of Barrel #1, and move the ball from Barrel #1 to Barrel #2.
- The Examiner will determine when the horizontal white line painted around the centre of the ball has dropped below the rim of the barrel. Hold the ball in Barrel #2 until instructed
- Candidates must be debriefed after finishing the test, especially if one or more of the following happen:
 - a. Moving barrel
 - b. Knocking over a barrel
 - c. Hook or ball touching ground
 - d. Exceeding the optimum time

Task 5: Negotiate Zigzag Corridor with Load

Sample optimum times:

Telescopic Boom Crane—Fixed Cab: 4 minutes each direction

Telescopic Boom Crane—Swing Cab: 3 minutes each direction

Lattice Boom Crane: 3 minutes each direction

- Lift the Test Weight into the air and swing, boom up or down, and hoist up or down as your judge deems necessary to guide the load through the Zigzag Corridor without touching the ground with the Test Weight, raising the Test Weight so high, or knocking over any part of the pole barrier.
- Candidates must be debriefed after finishing the test, especially if one or more of the following happen:
 - a. Knocking the ball off the pole
 - b. Moving pole base off line
 - c. Knocking the pole over
 - e. Passing poles with a chain off the ground
 - f. Load touching ground
 - g. Circumventing the course
 - h. Exceeding the optimum time
- Placed the Test Weight on the ground in the Stop Circle. The task is not complete until the load is placed completely within the outside perimeter of the circle.
- Lift the Test Weight from the Stop Circle and travel through the corridor in reverse fashion.
- Place the Test Weight on the ground in the Test Weight Circle. The task is not complete until the load is placed completely within the outside perimeter of the circle.
- At the Examiner's direction, swing the hook to the Start

Task 6: Safe Shutdown & Securing Procedures

1. Candidate's knowledge of safe shutdown & securing procedures.
2. The examiner is asking to describe the procedures in preparation to leave the site
3. After the task, candidates will be debriefed. If any are missing in proper shutdown & securing procedures.

15. Unsafe Act

If at any time during the period of the test, you commit an unsafe act, you will be disqualified from continuing with the test. Unsafe acts include, but are not limited to, the following.

- Dropping the overhaul ball or test weight
- Two blockings of the crane

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

- Uncontrolled or reckless operation
- Failure to respond to a stop signal
- Contracting an obstruction with the crane or test weight
- Any action that, in the judgment of the examiner, could endanger personnel or equipment at the test site.

The examiner has the authority to stop the test at any time for reasons of safety. Please ask the examiner if you have any questions.

If you are disqualified due to an unsafe act, the case will be reviewed by TSC, and you will be notified as to your eligibility for rescheduling the practical exam.

16. Weather Conditions and Equipment Problems

The Examiner must use an anemometer to check the wind speed and then record the weather conditions on the score/assessment sheet. The Examiner has the responsibility to determine if weather conditions or equipment problems are such that a test needs to be suspended. If the test is interrupted due to weather conditions or equipment problems, the procedure for restarting is as follows:

- Candidate will resume the test at the beginning of the task he/she was performing at the time of the Interruption, as appropriate.
 - If the candidate resumes the test on a different machine, the candidate may start the entire test over from the beginning.
 - If the testing is delayed to a different day, the test must be restarted from the beginning.
- The Examiner must keep a record of candidate performance.

17. Candidates' Feedback Forms, Rights and Duties

Candidates can comment on the examination(s) as a whole or on specific items within an examination by writing their comments on the candidate feedback form. Examination comments are reviewed by TSC content experts on a regular basis.

Rights:

All certified persons will receive certification and an ID Card. Information supplied by candidates during certification activities is confidential and will not be disclosed without the written permission of the individual or employer concerned. An applicant with special needs has to declare, within reason, a request for accommodation. All certified persons have the right to make a complaint and appeal in case of any dissatisfaction in the certification process.

Duties:

To comply with the relevant provision of the certification requirements and to supply any information needed for the assessment. To comply with the TSC examination policy in maintaining the integrity and security of the examination process, and to be committed and not to release confidential examination materials.

All candidates must provide true and valid information. Candidate have to notify TSC if the examiner is known

To make claims regarding certification only with respect to the scope for which certification has been granted. Not to use the certificate in a misleading manner. To abide by the conditions of certification and agree to inform the certifier of any changes affecting the status of the certification.

18. Evaluation of Examination

The TSC examiner shall evaluate the written/oral and practical examination using the pre-defined answer given in the question bank.

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

The examiner is not permitted to discuss your performance on the test.

Score Reporting- Candidate must record their answer in the appropriate area given in the question paper. All candidates will receive a result of their performance. Examiner results are mailed/telephonic to the candidate within 2 working days after the examination.

19. Recertification Requirement (Criteria for Re-Certification Process)

Certification is valid for one year. Recertification candidates must complete all recertification requirements one month prior to their certification's expiration date. This includes:

- Passing the recertification written/oral examination(s)
- Continuing to meet occupational health card requirements
- Have a valid driving license from the relevant authority, where applicable
- Compliance with substance abuse policy
- Compliance with the code of ethics

Recertification candidates who must take both practical and written/oral exams, however, must do so before their certification expires.

Recertification candidates may take their recertification written/oral practical examinations up to one month prior to their certifications' date of expiration.

Regardless of the date of the recertification examination, the new one –year certification period begins from the date of expiration of the candidate's initial certification.

Candidates who are not certified in all specialties may add a new specialty at the same time as they take their recertification Examination by taking the full examination in that specialty.

20. Decision on Certification

The examination is completed, the examiner will collect the examination sheet and submitted to the Quality department in TSC. The decision on certification of a candidate will be made by TSC based on information gathered from the certification process. Certification shall not be granted until all certification requirements are fulfilled.

The decision maker makes his decision based on complying with all requirements, and completion will result in his decision to grant certification to the candidate. Decision of granting, extending, reducing maintain, suspending or withdrawing will be made by TSC and shall not be outsourced.

21. Issuance of Certificates

A competency certificate will be issued by the TSC and signed by the examiner, and decision maker (Certification Manager) and a competency card shall be issued by TSC.

TSC certificates shall, as a minimum, contain the following information.

- A unique job number and certificate number.
- Name of the certified Person
- Photo of the certified individual
- Scope of certification, including range of validation and limitations
- Date of issue and expiry date

TSC has maintained and has the sole ownership of the certificate.

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

22. Change of Contact Information

A person who changes their contact information must notify TSC ASAP.

23. Certification Scheme Fees Details (Please Refer Quotation)

- New Certification (Mobile Crane Operator-Oral/Written)
- New Certification (Mobile Crane Operator-Practical)
- Re-Certification (Mobile Crane Operator-Oral/Written)
- The candidate has one chance to reset the written and practical exam for 50% of the certification fees.
- An additional 100 AED will be charged if a candidate needs a replacement certification card or Certificate.

24. Re-Set Examination

Normally, the candidate must pass written, oral and practical examinations to be competent, but if,

- If the candidate has passed the written exam and failed in the practical, then a re-set examination will be conducted.
- Once the candidate is ready for re-examination, they should inform TSC to make a schedule.
- The fee for the re-set examination will be 50% of the original certification fee.
- If the candidate fails in either one or all three written, oral or practical exams twice (two times in a row) will not take any further assessment until they undertake relevant training.

25. Training Requirement

A candidate who passes the written exam but does not pass the practical exam will then be required to re-sit that exam. The candidate will send a request for re-sit of the exam within two weeks of the exam.

A candidate who fails in either one or both written/oral or practical examination twice (twice in a row) shall not undertake any further assessment until they undertake a relevant training.

Training shall not be less than:

- Lifting Equipment's operator, 3 days, 5-7 hours a day.

The regulatory authority will assess the knowledge and competencies of the operator's onsite staff randomly to ensure the regulation is being followed. Any company that violates either the training or the certification requirements will be subjected to legal action

26. Suspending, Withdrawing the Scope of Certification

The Candidate seriously failed to meet certification requirements, or the candidate does not follow the agreed terms and conditions for certification services, or misuses or misleads the certificates. Failure to resolve the issues that have resulted in the suspension, within a time established by TSC, shall result in withdrawal of the certification or reduction of the scope of the certification.

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

TSC has documented procedures for suspension or withdrawal of the certification or reduction of the scope of certification.

The certification status shall be suspended or withdrawn immediately by TSC until the same is resolved. Filing for revocation is based on the following,

- The candidate seriously failed to meet certification requirements, including requirements for the certification scheme.
- The certified candidate does not allow surveillance or recertification audits to be conducted at the required frequencies.
- The Candidate does not follow the agreed terms and conditions for certification services.
- If it is found that the candidate is misusing the certificate.
- If it is noticed that the candidate is misleading with the certificate.
- Evidence of falsification of any submitted information on any documents.
- Evidence of non-compliance with substance abuse policy.
- Any related accident certified candidate should inform TSC within 48 hours.
- Period of certification exceeded without renewal.

TSC shall have an enforceable arrangement with the certified person to ensure that, in the event of suspension of certification, the certified person refrains from further promotion of the certification while it is suspended. TSC shall make sure that the certified person is removed from the TSC list of certified persons. Under suspension, the candidate's certifications are invalid, and the candidate is informed not to use the certification status during the period of suspension.

TSC is providing the certificate holder with the opportunity to resolve the issues that have led to the suspension. Failure to resolve the issues in the given time frame will result in the certificate being revoked.

27. Rescheduling, Cancellation Time Frame

When the candidate is ready to reschedule his examination, he must notify TSC one day before with proper documents.

Cancellation Time Frame (Deduction Percentage):

- Refunds are 100% for the examination cancelled by the TSC.
- Official refund for withdrawing from an examination is as follows:
- 75% after the confirmed booking
 - 50 % 3 days prior to the scheduled Examination date.
 - 0 % after 1 day or less, prior to, or after examination commencement, the TSC will not refund any fees paid by/ for the client.
 - A full refund (100%) will be provided on behalf of a candidate whose death occurs during the training course.

28. Complaint and Appeals

Registrations and treatment of complaints and/or appeals shall be managed according to Quality Procedure QP-10, which is available along with the TSC quotation.

MOBILE CRANE OPERATOR (CERTIFICATION SCHEME)

These are managed by the GM /MR/Decision maker and are reviewed by the scheme committee as part of their impartiality review.

Complaint should be addressed to:

Team Safety Consultants LLC
Office no:106,Bank of Sharjah Building
P.O. Box: 112349
Al-Garhoud, Deira, Dubai
Phone: +971-4-2828868
Email: info@tsc-uae.ae

29. Surveillance Methods and Criteria (If Applicable)

Since the certification period cycle is one year, surveillance methods will not be applicable unless is registered by the client, at that time the criteria of the initial certification process will apply.

30. Candidate ID and Signature

Prior to the beginning of the examination, the candidate shall provide photo identification such as a Labour ID, Emirates ID or driving license and sign the examination document.

A candidate without proper identification documents will not be admitted to take the written examination. Candidate must bring the materials like a pencil, Eraser and pen, etc.

31. Certification Cards

Certified Mobile Crane Operators shall keep their original card with them at all times for review and checking from the relevant authorities during inspection.

Certified Crane operators receive a laminated photo ID card at no extra cost when they certify for the first time and when they complete the requirements for certification.

Note: The ID card is not a driver's license.
